

A plan for the future

We can't afford to stand still. I want to push for bold action to decarbonise our area and plan for the future.

Care in the community

I'll use my experience working in healthcare consulting to push for world-class, integrated health and social care.

Council services that we can trust

From potholes, to SEND provision, to social care, council services aren't delivering for local people. As your councillor, I'll be a strong voice to demand better for our area.

Any good councillor should be regularly in touch, listen to local people and tirelessly fight for their community. Unfortunately, our area hasn't had this representation in recent years.

Our current Labour County Councillor has been near invisible in our community and in the council chamber. They turned up to less than half of council meetings last year, and local residents haven't heard from them despite 4 years as their elected representative.

If I'm elected on May 1st I will be active in our community and vocal in Shire Hall, fighting for the issues that we all care about. Chief amongst these is ensuring that we receive the local services we expect: high-quality roads, effective social care, and SEND provision that leaves no one behind.

Having worked across healthcare I'm particularly passionate about how we integrate our health and social care services to provide care proactively, preventing hospitalisation and improving outcomes for patients.

I am running to be your voice here in Leamington, a community I'm proud to call home. I would be honoured if you would give me that chance.
